### **III. Legal Documents for SUNMI Device Privacy**

The legal documents for SUNMI device privacy provide as much detail as possible on how SUNMI processes your data, but the legal documents for SUNMI device privacy may not cover all possible data processing circumstances. SUNMI attaches great importance to the protection of each user's personal information and privacy and considers the security of operational data for each device to be a top priority in the design of its products.

We promise that the data you provide will only be used for the purposes described in the relevant clauses under the legal document for SUNMI device privacy. In order to protect the security of your data, we have adopted industry-standard data protection technologies and administrative measures, such as network isolation, data encryption, and employee access control. Below are the details of our data and privacy protection. You may click on the corresponding link for the full content:
